

# Investment Project in Migration Solutions

## Investment @ Almonte Leclerc

Dear Sir/Madame,

Migration, defined as the movement of individuals from one country to another, has been in motion since the dawn of humanity.

In recent decades, and since the emergence of various geopolitical crises worldwide, people are ever seeking to go to another place in search for a better life. A place where they can prosper economically and therefore be an active participant in the growth of the economy of that new country, also intellectually by bringing their knowledge and expertise and work together with the nationals of that country.

However, like in all countries of destination, for a migrant to become a fully integrated law-abiding citizen, this takes a process: obtaining a visa, naturalization, job search, school (or higher education) application, help in housing search, moving... Here is where we the Migration Experts at *Almonte Leclerc* (property of **EUROMIGRA SRL**.) come into play.

We aim to assist millions in this endeavor but we can only do this together with your help.

Here in this document you can have a brief overview of our progress thus far.

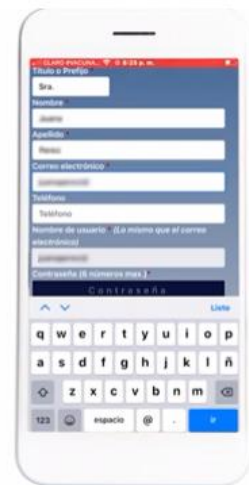

## Vision @ Almonte Leclerc

Our vision is the maximum integration and participation of (future) residents and (future) citizens in the Netherlands and the European Union.

## Mission @ Almonte Leclerc

Through the tools detailed below we are achieving an effective integration and participation of residents and citizens in the Netherlands and the European Union.

1. Our information and orientation social media programs.
2. Our personified virtual consultations (maximum 45 minutes where we answer your concerns).
3. Legal representation in the areas of immigration law, social security law and commercial law.
4. Training courses in the areas of immigration law, social security law and commercial law.

## Why should I invest @ Almonte Leclerc ?

While countless of people are paying all their life savings to criminals who would illegally smuggle them into Europe with no guarantee of safety for their lives and those of their families, we offer, on a much lower cost, a clean, secure, legal entry and integration into the country of destination (the Netherlands or Spain).

To be able to reach out to potential clients worldwide, we will need to scale-up our technology and expand our offices.

The interest on your investment could be significant!

Take a look at the statistics below and what we have already achieved in just 3 years with our new app and services coupled with ITC.

## Statistics @ Almonte Leclerc

In just 3 years of launching our mobile applications, we have logged over 1300 users.

We are taking our mobile App, website and Management Platform to another level by using all the available tools and technology, including A.I (Artificial Intelligence) to significantly increase the odds of our customers to successfully reach their goal.

## Prospects @ Almonte Leclerc

Upgrading our already robust dedicated server and scale-up our platform to be able to serve some 500 requests or more per day. Using A.I to process cases 24 hours a day, 365 days a year and settling at least 2100 consultations monthly.

Our activity, via our mobile App, will not only be limited to solving migrations cases, but also providing a broad spectrum of services ranging from cheapest price plane tickets purchase and booking, job searcher, interactive English classes, Dutch classes, Assistance in Taxes and Administration and complete easy-to-learn information regarding Migration Laws... All one need to be fully prepared and empowered to be 100% successful in the country of destination.
